In this regard, the President stated that it had received written questions from a shareholder which he read and for which the Board makes the following responses:

Question 1: Several employees (almost 4% of your staff) have "slipped" at Sanofi (1p in February, 3p in July / August), all coming from the Mabs' platform; Where are you on this platform? What are the reasons for this transfer? Is it normal that an almost whole has been integrated at Sanofi?

Board of Directors Answer: While it is true that many people have resigned to join Sanofi, it is incorrect to say that they were all working on the platform mAbs. The departure of these people affect the development of developing programs in Adocia.

We recall, for all purposes, that all employees Adocia sign a confidentiality agreement at the time of hiring that binds them even after they leave.

Question 2: What is the current ownership structure and what is the % of free float on the stock market?

Board of Directors Answer: The current capital allocation is on our website. On 31 October, the float is 61%.

Then no body asking the right to speak, the President put successively to the vote the resolutions listed in the agenda.

- this amount shall be deducted from the aggregate ceiling stipulated in the fifth resolution below, and
- the total number of shares to be issued on exercise of granted stock options and still outstanding shall never exceed one third of the share capital,

decide that the price set for the subscription or purchase of shares to which the options give the right cannot be changed during the term of the options, on the understanding, however, that if the Company were to carry out one of the operations stipulated in Article L. 225-181 of the French Commercial Code, it should take the necessary steps to protect the interests of the beneficiaries of options in accordance with Article L. 228-99 of the French Commercial Code,

- determine the identity of the beneficiaries of share purchase or subscription options as well as the number of options to be granted to each of them;
- set the purchase and /or subscription price of shares to which the options give the right within the limits of the aforementioned texts, on the understanding that the subscription price per share shall be higher than the nominal value of the share;
- ensure that the number of share options granted by the Board of Directors shall be set so that the total number of share subscription options attributed not yet exercised cannot give the right to subscribe to a number of shares exceeding one third of the share capital;
- adopt the rules for the share purchase or subscription option scheme and determine the conditions under which the options may be granted, including, in particular, the schedule for exercise of the options that have

been granted, which may vary according to the holders; on the understanding that these conditions may include clauses prohibiting immediate resale of all or part of the shares issued upon exercise of the options, within the limits set by law;

- proceed with the acquisition of the shares of the Company that might be necessary for the sale of any shares to which the stock options bestow entitlement;
- perform, either itself or through an agent, all acts and formalities in order to complete capital increases that may be carried out under the authorization covered by this delegation;
