

## PRESS RELEASE

### **Adocia announces the release of its Reference Document, containing the Annual Financial Report and the Management Report, for the year 2016**

**Lyon, France, April 18, 2017** – 6pm CET- Adocia (Euronext Paris: FRO011184241 – ADOC- the “Company”), announces the filing of its 2016 Reference Document with the *Autorité des marchés financiers* (AMF - the French financial markets regulator) on April 11, 2017.

An electronic copy of this document is available on the company’s website ([www.adocia.com](http://www.adocia.com)) as well as on the website of the AMF ([www.amf-france.org](http://www.amf-france.org)). Hard copies are available upon request at the company’s headquarters located 115, avenue Lacassagne, 69003 Lyon.

The following documents are included in this reference document:

- The 2016 Annual Financial Report including the 2016 Management Report,
- The Chairman of the Executive Board’s report prepared in accordance with article L.225-37 of the French code of commerce as well as the related statutory auditor’s report,
- Information on the fees paid to the Statutory Auditors and the corporate social responsibility.

#### **About ADOCIA**

Adocia is a clinical-stage biotechnology company that specializes in the development of innovative formulations of already-approved therapeutic proteins. Adocia’s portfolio of therapeutic proteins for the treatment of diabetes, featuring four clinical-stage products and six preclinical-stage products, is among the largest and most differentiated in the industry.

The proprietary BioChaperone® technological platform is designed to enhance the effectiveness and/or safety of therapeutic proteins while making them easier for patients to use. Adocia customizes BioChaperone to each protein for a given application in order to address specific patient needs.

Adocia’s clinical pipeline includes four novel insulin formulations for the treatment of diabetes: two ultra-rapid formulations of insulin analogs (BioChaperone Lispro U100 and U200), a rapid-acting formulation of human insulin (HinsBet U100) and a combination of basal insulin glargine and rapid-acting insulin lispro (BioChaperone Combo).

Adocia is also developing an aqueous formulation of human glucagon (BioChaperone Human Glucagon), two combinations of insulin glargine with GLP-1s (BioChaperone Glargine Dulaglutide and BioChaperone Glargine Liraglutide), two combinations of insulin lispro with synergistic prandial hormones (BioChaperone Lispro Pramlintide and BioChaperone Lispro Exenatide), and a concentrated, rapid-acting formulation of human insulin (HinsBet U500), all of which are in preclinical development.

*Adocia aims to deliver "Innovative medicine for everyone, everywhere."*
